Throughput Enhancement

Optimum driver/firmware technology and High speed paper feed mechanism enhances the throughput. This enables customers not to waste time.

High Reliability Mechanism

GTP-150 passes the severe quality assurance tests, and ensures longevity with consistent print quality. The reliability is proven by the achievement of ISO9001.

JMI-0046

Auto Cutter Life	1.5 million cuts
Thermal Head Life	100km
Printer (MCBF)	60million lines

Comparison of throughput with other companies.

(Time from the start of data transfer to the completion of print)

Print condition: Windows XP,USB Interface, 150mm Receipt length with our test pattern

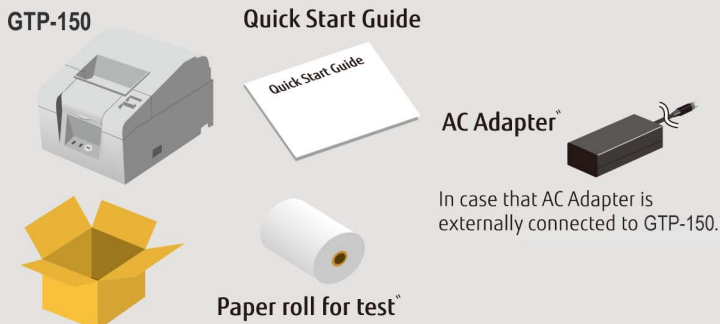

Auto Cutter

Auto cutter is included as a standard feature in the GTP-150. The cutting method is partial cut, where the center tab of paper is connected to the next page. This paper tab is small, and it does not spoil the look even after tearing the paper.

Simple Setup right out of the box

Setup is simple and easy. Just drop in a roll of paper, connect the cable and install the software in the SETUP DISK.

Accessories in the box

Connect cables

Connect the interface cable and AC adapter.

Switch on

Switch on the printer power.

Drop-in Paper set

Just throw the paper inside the printer, and close the lid. Paper feeding route is opened, and it makes the maintenance easy.

Driver/Software Installation

Windows Driver, OPOS Driver and Utility Software can be easily installed. Just follow the user guide in original Installer. IP address setting in Network environment can be quickly and easily setup with standard LAN setup tool.

Various Functions

Running cost can be saved.

Reduced print function of Windows Driver and Top Margin reduced function save your paper. Running cost and environmental load can be reduced.

Reduced printing

- 1/4 reduced vertically
- 1/2 reduced vertically
- 80mm width paper
→convert to 58mm

Top Margin 3mm

** Take off each receipt every time after printing in case of 3mm setting.

Kitchen Printer Functions

GTP-150 has various functions for Commercial Kitchens. Order receipts can be printed for Ordering systems.

Buzzer beeps when receipt printed.

Buzzer is a standard equipment for the notice of order receipt printed. Various functions like Buzzer On/Off and 5 patterns of beep sound suite versatile restaurant environment.

Ex. You can select different sound patterns for Foods and beverages.

180 degree rotation print

180 degree rotation print by Windows Driver is available. You don't need to turn the paper up side down when you use the printer vertically.

Splash-proof option

When the printer is set on the Kitchen counter, Printer can be set vertically with using optional Splash-proof cover.

With using Wall hanging bracket, you can set the printer on the wall for saving space in the kitchen.

Barcode / 2-Dimensional code

GTP-150 supports Barcodes and 2-Dimension codes (QR code).

Large Logo Store Memory

Image data can be stored up to 576KB. You can store several Logo data.

Versatile Utility

Printer Setup Utility

The original tool ensures easy setup changes like fonts, Baudrate and others.

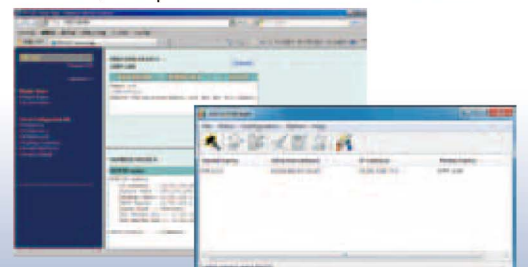

Status Monitor to notice errors

Any errors like paper out can be notified at once by pop-up notice.

Utility for LAN Interface

The original tools for network environment are well-supported with using Quick Setup to set IP address, PR-Port Manager, Admin Manager and Popup Status Monitor for LAN. Also, setup from Web Browser is available.

Small Footprint

Compact

GTP-150 achieves the compact outline W144xD184xH120mm.
** In case of AC Adapter externally connected. This contributes the small shop which has a limited space for installation. (-13% compared to our company models, the smallest among the same class printers.)

Easy to store Interface Connector

GTP-150 has a recess to store Interface Connector under the case. This eliminates the space requirement. It is designed not to protrude from the backside view of the printer.

Built-in Power Supply

Built-in Power Supply model is also available.

Depending on the installation space, various selection is available.

Flexibility

Horizontal/Vertical Use

Depending on using environment, GTP-150 can be set horizontally or vertically. When using it vertically, printing direction can be rotated 180 Degrees. Paper near end can be detected for both horizontal and vertical settings.

Versatile font size like 180dpi emulation size

3 types of Font size such as Font A, B, and C are available. Also, you can flexibly set the font like Extended font with approximately 180dpi size, and select Pitch and Space between characters. (using OPOS Driver)

Enhanced Drivers

GTP-150 supports Windows® Drivers, OPOS Drivers and JavaPOS™ Drivers.

Interface

GTP-150 has two models; Dual (RS232C Serial + USB) Interface and LAN Interface.

Various paper available to print

GTP-150 enables you to choose various kinds of paper; Print Width 58mm/80mm, Maximum outside diameter ϕ 83mm, Paper thickness 65 μ m~85 μ m.

Low-impact to Environment

Super Green Product

GTP-150 passes our own severe environmental standard, and it is called "Super Green Product". The use of Recyclable material, Material Label attachment and Downsizing supports the environment.

Super green product is the product which complies with SENOR original severe environmental standard

Not containing Hazardous Substances

In addition to RoHS directives in Europe, GTP-150 complies our own strict standard of Prohibited substance standard.

Energy Saving

GTP-150 complies with the New Energy Star Program. (Built-in Power Supply Model)
